
I have an REO Company and I would like to expand

Posted by SDBroker - 2008/07/22 12:48

In California is anyone out there that is currently not doing BPO's or REO listing management that would like to team up and coop longterm? I have done thousands of BPO's and handled many listings for banks.

Hello,

I am in the process setting up a new realty in Bay Area. My clients are desperate to have REO investment opportunity with someone who, for a change, knows what he or she is doing. I am interested in discussing the opportunity with you. I have access to buyers and professionals but don't have relationships (that I know of) with Nonperforming Asset Managers at lenders' sites. I am also open and interested in learning new systems, strategies and techniques for making money in Real Estate.

I am looking forward to speaking with you soon.
